

## Fail to Find Trace Of Old Viking Ship

FARGO, N.D. (AP)—Two amateur explorers returned to Fargo Saturday without trace of an ancient Viking ship of some 1,200 A.D. vintage which was reported bogged down in a swamp since day of old. The explorers didn't find the swamp, either.

The hunt was launched by Superintendents Richard E. Sasser and Russell Reid, of the historical societies of Minnesota and North Dakota, upon the story told recently by Vernon Jempe, Minneapolis oil company engineer, that he had sighted an old Norse vessel in a swamp near Arthur, 35 miles northwest of here, back in 1914.

## ONE MINUTE NEWS ABOUT JOHNS-MANVILLE

### The Ostrich Is

#### A Lucky Bird

Yes, our feathered friend is a lucky fellow. According to popular belief he merely sticks his head under the sand and ignores the rest of the world and its problems.

There is one fellow, however, who makes it his business to solve problems. He's your Johns-Manville dealer—a good man to get in touch with if you are planning to build or remodel.

Today, with the demand for building materials actually doubled, your J-M dealer has a really tough assignment. But he's just the man to see for sound advice and he'll also be glad to supply you with free illustrated folders to help you with your planning. Why not phone your nearest Johns-Manville dealer today? Northern Alberta office, 16233 103rd street, Phone 23508.

## Greece to Vote On King's Return

ATHENS, (AP)—Politically turbulent Greece is preparing to vote again Sept. 1 on the return of a one-represented king.

The election will be held under the auspices of a royalist government which was forced by strong parliamentary opposition to make the plebiscite a question of regime rather than a yes or no vote on George II himself.

Left-wing parties, which abstained from voting and thereby virtually conceded the March 31 parliamentary election to the Royalist Popular party, will participate this time. Thermopyles Sphoula, 86-year-old prime minister before the Popular victory in March, recently reiterated his contention conditions are not conducive for a free and honest vote. Greece's venerable Republican camp consistently has opposed Popular right-wing legislation.

Sphoula has taken the stump in opposition to the king. The Communist-dominated left-wing faction has made clear overtures to the centre Republican groups to create a common front against King George, but the centre has refused this union.

Three ballots will be used. One will be marked King George II, another will be marked Republic, and the third will be blank. Blank and Republic ballots will count against the return of the king. But the question of whether Greece will be a monarchy or republic will not be settled unless a majority of the ballots are marked for one or the other.

Women will not vote. All men over 21 are eligible if they have been registered.

**GERMAN NURSES TO DIE**  
SCHWERIN, Germany, (AP)—A German court Saturday passed sentences of death on four nurses, three men and a woman, who admitted giving overdoses of drugs in an extermination camp designed to have killed from 500 to 700 patients at the Sachsenhausen asylum.

## Girl Escapes "Grave" Danger

Venerable Giant of Atlantic, Ga., climbs out of the grave in which she thought she would repose forever. She was held prisoner there, she said by her estranged husband, William Lee Ganti, Jr., a former sailor. She told a civil court judge after placing her in the grave he gave her the choice of death "by stabbing or shooting." Instead of answering his question, she asked him to get her some food. While he was away she escaped. She climbed out of the grave with the aid of a shovel.

## Government Using Too Many Cars? 93 Autos Before War, Now 4,133

OTTAWA.—Post-war requirements by the armed services and other government departments of personnel carrier vehicles appears to be excessive, the special committee on war expenditures and economics reported to parliament in its final report.

The committee pointed out that in pre-war days there were 93 personnel carrier vehicles in use and that the post-war requirements show 4,133 vehicles of this type.

The committee said it desired to call the attention of the house, and particularly the minister of defence, to this situation.

From the evidence submitted, the committee reported, it was ascertained that greater care should be exercised by the armed services and War Assets corporation when surplus vehicles were being turned over. The committee recommended that "when surplus vehicles are to be declared by the armed services or from any other source, advance notice be given to War Assets corporation to take them hand to check and receive surplus."

**GERMAN PRISONERS ESCAPE**  
METZ, France, (Reuters)—German prisoners of war in France are escaping across the frontier at Lez-lez-lez at the rate of 2,000 a month. Gen. Georges Buisson, head of prisoners of war headquarters, said Saturday. In the last year 25,000 prisoners have escaped.

Australia is seeking methods to alleviate its coal shortage during the winter.

## Quebec District Had 3,832 A.W.L.

OTTAWA, (CP)—A total of 14,115 deserters and absentees—the majority of whom are free men as a result of the new partial amnesty policy effective Aug. 15—were at large July 31, it was disclosed Monday.

Here is a breakdown by military districts: No. 1, London, Ont. 570; No. 2, Toronto 1,344; No. 3, Kingston, Ont. 1,433; No. 4, Montreal, 3,452; No. 5, Quebec, 3,832; No. 6, Halifax, 1,064; No. 7, Saint John, N.B. 452; No. 10, Winnipeg, 374; No. 11, Vancouver, 711; No. 12, Regina, 101; No. 13, Calgary, 213; European theatre, 224, and territories adjacent to Canada 46.

## Crowd Threatens Death Car Driver

TORONTO, (CP)—An angry crowd stormed in front of a home owned by a man in the city in Toronto Sunday night searching for the driver of an automobile that crashed, killed a woman, killing nine-year-old Richard Rolfe and injuring Terry Little, eight.

"That crowd was ready for a lynching," said the man, Aldridge, who received a punch in the eye when he was mistaken for the driver.

The driver of the car, said to be between 25 and 28 years old with a cut over his left eye, complained of dizziness from the cut and after the accident was taken to the Aldridge home for treatment. When the crowd gathered in front of the house he fled apparently through a bathroom window.

Police said the car had been stolen from a nearby intersection a few minutes before the accident.

## 22,000 Veterans In Poor Quarters

OTTAWA, (CP)—Veterans' Affairs Minister Mackenzie reported Monday a survey of veterans' housing by the rehabilitation branch showed 22,000 veterans have "really bad" accommodations.

The minister said less than a third of the veterans' housing questionnaire cards which were stamped for reply. Only a limited number showed the veterans' housing problem is of "smaller dimensions than expected." Forty-seven percent of the veterans replying lived in homes with more than one person per room; 31 percent of the veterans were paying more than 20 percent of their income for rent and 53 percent were sharing bathroom or toilet facilities.

## New Zealand Seeks Airlift to Canada

WELLINGTON, N.Z. (Reuters)—Prime Minister Peter Fraser said Saturday steps are being taken to conclude an agreement with the Canadian government for an air service from Auckland, N.Z., to Vancouver.

He also said the New Zealand government will resume negotiations with the United States to establish an air service between Auckland and San Francisco.

## Star Files Suit For \$2,725,000

LOS ANGELES, (AP)—Actress Joan Leslie says she deserves at least \$2,725,000 against Warner Brothers studio to prove it. Charging her billing in a picture was reduced to that of a featured player after she won a recent suit to break her contract with the studio. Miss Leslie made damages for what she claims is a deliberate effort to hamper her free-lance career.

## Demand is Growing Louder For Home Rule in Scotland

By Charles Nichols

LONDON.—Scottish champions of home rule for the northern kingdom are making a more effective demand these days than at any time in recent years.

Warnings that "the heather is on fire" have been reaching a national scale in such insistent ways that the subject—once which has demanded attention in some degree since the Act of Union in the reign of James I—is no longer being treated lightly.

Scotland has a growing list of grievances, so serious that discontent is cutting across party lines and is drawing support for home rule even among formerly staunch unionists.

And apart from the specific grievances, there is an underlying feeling that the country north, which is so enthusiastically praised in wartime for its fighting units, is left to revert to a forgotten land with the spirit of peace.

**Forgetting Promises**  
There were many Scots who voted for Labour candidates in the last election because Labour in Scotland supported a policy of federal home rule. Now, however, when M. P.'s are settled in Westminster and have to occupy the bulk of their time with the business of the commons and the government, the subject seems to have been neglected.

Besides, the socialist government's effect put the government into business in banking, coal mining, gas and fuel, and so on, to quote what the Scots see as the evil of centralization of government in London. London they feel, the problems of their own half of the island are seen dimly, often neglected.

**Bigges** recent blow was the treaty which Britain made with the United States for the use of the Prestwick airport. During the war, Atlantic traffic in Scotland had been the major British air terminus for Atlantic traffic and the Scots saw the prospect that their country, pre-eminent in shipbuilding, would, after the war, develop into a major air and sea aircraft industry.

**Scots Hoping Mad**  
Decision by the Labour government to take all air transport under its wing, to make the British Empire air line the terminus for Atlantic planes, burst the Scottish dream.

The Scots were hoping mad about it. "It's a breach of the Act of Union," Sir Thomas Moore charged in the commons. "Pre-wick," he said, had been "chucked overboard."

The government may retrieve the situation by giving Scotland some limited scope for aviation development; but if they don't the subject is going to be a difficult one for the Labour party to smooth over when they go north to campaign for re-election.

Besides their own air transport organization, the Scots want their own board of governors for broadcasting to ensure programs for themselves which will reduce noise in the air.

The Scots have never as a whole taken too kindly to the Act of Union. They have felt that economically as well as culturally it was a raw deal and even the post-war developments have tended to confirm this.

**Unemployment High**  
There is more unemployment in Scotland than in any other large industrial region. The government is trying to channel more industry to the north; but so far the efforts have not shown any marked benefit.

Sir Stafford Cripps, president of the Board of Trade (department of trade and commerce) recently acknowledged that new employment would have to be found for 143,000 workers. He pointed out that for new factories had been approved by the government for Scotland and that these would absorb about 20,000 unemployed, leaving a balance of 123,000.

"But," he said, "it is not our job to start new production; that must be the job of the industrialists."

It is these things that make for a general clamor for a more effective Scottish voice in the affairs of the United Kingdom, give the nationalists a rich ground of exploitation. Among the extremists there has been the suggestion that Scotland appeal to the United Nations for help in achieving dominion status; but it is unlikely that any very wide support could be found for that measure.

## Special Campaign For Navy Recruits

Applications for service with the reserve division of H.M.C.S. Non-com are being received at the naval barracks each day from 8 o'clock, between 8:00 and 10:00 o'clock, Lt.-Comdr. Rodney Pike, R.C.N. (R), officer in command, announced Monday.

In a special drive to enlist recruits, an officer will be on hand each evening to meet prospective recruits. He says H.M.C.S. Non-com was looking toward an active year and urged those who intend to enlist to get their applications in now.

The officer said the navy was anxious to get the service of men 17½ years and over, and was especially interested in former navy men who may be enlisted with the same rank on which they were discharged.

A special drive for recruits is to be made when school opens, with officers visiting schools and talking to senior students.

## Discover Boat Scout Dead in Hotel Room

DALLAS, (AP) The body of Edward Lester Wilson, 27-year-old scout for St. Louis Cardinals, was found Saturday in a wrecked hotel room but an autopsy disclosed no wounds capable of causing death.

The theory that Wilson was slain was being accounted, police reported.

Dr. Charles Asworth, who conducted the autopsy, reported there were signs of alcoholism. Wilson died profusely apparently from the nose and mouth.

The body was in a sitting position against a wall. All the man's clothing was scattered throughout the room. Covers from two small beds were on the floor and both mattresses were bloody.

## Jap Rear Admiral Kills Family, Self

YOKOSUKA, Japan, (AP)—Rear Admiral Shiro Sato, 54, war-time commander of Japanese naval forces in the New Guinea area, killed his wife and two children as well as himself Saturday, then took his own life with the same pistol.

He left a note expressing a feeling of degradation by defeat. "Dispose of the bodies of me and my family as you would of cats and dogs," it read.

## "You'll love baby's lovely skin!"

Just smooth some mild, soothing Mennen Antiseptic Baby Oil all over baby daily, to help keep skin beautiful, "glowing with health!" Helps prevent urine irritation, diaper rash, many skin troubles. Wonderful results on millions of babies. Recommended by most doctors, hospital nurses. Makes baby smooth, so sweet!

Use super-smooth MENNEN ANTISEPTIC BABY POWDER (formerly called Borated Powder) to help keep baby's skin smooth, healthy, comfy. New scent makes baby smell sweet. Note baby's reaction when MENNEN's is used on baby's skin!

## Russians Explore Cancer Treatment

NEW YORK, (AP)—A new line of medical research indicating a treatment for cancer of "infinite possibilities" is being explored by Russian scientists, says Dr. Edward L. Young, United States surgeon who returned from a tour of the U.S.S.R.

Dr. Young, chief surgeon of the Faulkner Hospital, Boston, said he had been asked not to discuss the research project in detail but added: "They let me know that I could judge for myself whether it was of a substantial nature. It is based on the same principle as that which led to penicillin. It is a sound basis. They believe they have found a chemical produced by an organism which is inimical to the cancer cell."

The principle upon which penicillin, streptomycin and other antibiotics have been developed, is that certain microscopic organisms produce chemical substances antagonistic to some of the viruses and bacteria that cause infectious and disease in man.

Another phase of Russian medical work, which Dr. Young found "intensely interesting" was the detailed program of cancer research carried on in an effort to bring up a generation of Russians as physically perfect as possible.

Dr. Young said supervision of the child starts on the day of birth, continues through the school years, and is not left to the discretion of parents.

Switzerland has extended government control over watch making.

**His NOSE is made of Plastic Wood!**

SEX INCHES HIGH and carved from wood, Jean-Baptiste began life without a nose when his creator's knife slipped and eliminated that important part of his face. But plastic surgery saved him. His new nose is a product of chemistry. It came out of a tube in the form of C-I-L Plastic Wood, a C-I-L Paint & Varnish Division product for home, hobby and industrial use in healing holes and cracks in wood. C-I-L Plastic Wood comes from "Wood Flour", derived from nature, combined with a chemical bonding agent. The result is a product that "Handles like putty and hardens into wood".

## Find Body Buried In Guelph Cellar

GUELPH, Ont. (CP)—The body of William Norrish, 54, a veteran of the First Great War, missing since March 20, Saturday was discovered by Guelph police buried in the en-

then floor of a house where he had been a roomer for four years. Police Chief Harold Nash said the owner of the house, William Callahan, 45, was arrested after discovery of the body, and held on a charge of vagrancy pending further investigation.

## Lack of Subsidy Blocked Airline

By Richard Sanburn

OTTAWA. — Refusal by the air transport board to grant a license for operation of a new schedule of air transport route between Lethbridge and Vancouver with intermediate stops was cited in the commonsense Saturday by Cecil Merritt (Prog. Cons., Vancouver-Burrard).

Last year, Reconstruction Minister Howe had praised the proposed route as "an excellent one." Mr. Merritt said, and three applications to operate the route were filed and heard, only to be refused.

He cited the reasons given by the air transport board, but said the real one was the government had declined to pay the air mail contract subsidy asked by the company, which apparently was essential to make the route financially possible.

Mr. Howe replied this was the reason Capilano Airways had not been given the license, because they said they could not operate the route without a subsidy, and the board of directors had not felt there was sufficient air mail potential in the route to warrant subsidizing it heavily. He added, however, if Capilano Airways wanted to appeal the board's decision and was willing to take on the route with only present revenues in sight, the application would be granted at once. He personally wanted very much to see the route in operation.

## See No Extension Railway to North

OTTAWA (CP)—Transport Minister Clegg said Saturday in the commonsense survey had shown that until traffic has increased considerably there would be no possibility of extending the Pacific Great Eastern railway north to Hudson Hope, B.C.

Mr. Clegg said the survey had been made by provincial and federal government representatives. Until the position "with respect to that report is changed I can hardly see the necessity of co-operating with the British Columbia government" on the extension of the line.

William Irvine (C.C.F.—Cariboo) said the railway "can't go north and ends no place. It leaves a gap between Vancouver and Peace River. How in heaven's name can traffic increase on a thing like that?"

## Pig Derby Proves Porkers Can Swim

SEATTLE (AP)—Pigs can swim.

On Lake Washington, citizens of the small town of Kirkland Lake proved it Saturday when they staged their first annual pig derby.

Eighteen beautiful bathing girls tripped the shubbs, and 18 pigs slid into the water when Senator Hugh D. Mitchell (Dem., Wash.) fired a blast from his shotgun.

From a barge 75 feet off the city park the porkers swam to shore, most of them in a straight line. Eighteen lanes were choiced with hogs.

Except for two or three, which had to be rescued, all reached shore under their own power.

## Hitler's Order to Invade England By 'Surprise' Crossing Revealed

LONDON (CP)—Hitler's detailed blueprint for an invasion of England that never came off was published Saturday by the war crimes prosecution staff along with a mass of official documents testifying to Nazi war guilt.

The fuhrer's top secret general order for operation "Sea Lion," issued shortly after Dunkerque, called for a "surprise" crossing of the channel behind mine barriers to hold the British navy at bay, with the Luftwaffe and cross-channel heavy guns helping to crush opposition.

The plan was predicated, however, upon overcoming Britain's stubborn R.A.F. and never went into effect.

Hitler's order was included with some 300 other Nazi documents published in the first of eight volumes designed to reinforce the Allied charges that the Nazis plotted and waged aggressive war and committed countless crimes.

Included also was Hitler's order to his commanders to prepare to crush Russia, and an aide's memorandum stating the fuhrer was studying means of occupying the Atlantic islands "with a view to the prosecution of war against America at a later date." All were dated in 1940 when the Wehrmacht had overrun much of Europe. These have been made a part of the trial record.

## Performs Father Divine Wedding

Rev. Albert E. Shadd, who performed the marriage ceremony joining the Harlem "Messiah," Father Divine, with one of his disciples, Edna Rose Rutchings, 21-year-old white Canadian girl, re-enacts how he gave out with a "heavily glow," while presiding over the union of the self-styled "god" and the "goddess" lady.

## Held Prisoner for Thirteen Days, Boy Declares on Returning Home

LONDON, Ont. (CP)—Bruce Simms, nine, son of Mr. and Mrs. E. Sims of London, Friday walked into his home after an absence of 13 days. He said he had been held prisoner but broke away from his captor and boarded a London-bound train.

The slight, blonde child said he had been taken to Hamilton, then to Toronto by a man who "works at cleaning houses."

The boy carried home with him a letter signed "Jack" which said in part: "Just a line to say I am sorry I kept Bruce away so long but I used to live in your street, and

## Statistics Show Odds Good Against Getting Poliomyelitis

WASHINGTON (AP)—With infantile paralysis striking in various parts of the United States and Canada, Dr. Howard A. Howe of the poliomyelitis research center at Johns Hopkins university, has some things to tell the public.

Writing in "Hospitals" magazine, Dr. Howe says:

If you have a child under 10 years of age, the chances are only three in 1,000 that he will suffer a severe attack of infantile paralysis, even during an epidemic.

There is one chance in 1,000 he will be crippled for life.

The risk of a severe attack lessens sharply after a child passes 10. Beyond 20 there is only about one case in every 100,000 population, eventually extending to one out of 100,000.

Dr. Howe acknowledges there is small comfort in these facts.

"For that one child in 1,000 (who may be crippled for life)," he said, "poliomyelitis still is a great tragedy."

Why do adults rarely suffer a severe or recognizable attack?

Dr. Howe says science believes the vast majority of people must have had a mild case of infantile paralysis and gained a practical immunity without ever being aware of it.

Dr. Howe says it is practically certain the disease is transmitted by "human contact." But it is still unknown whether that contact is by direct contact, or whether it may sometimes be indirect.

## 20 Arrested Daily On Sabotage Shift

AMRITSAR, India. (Reuters)—Every day 20 peasants march to a canal near this Punjab city to attempt destruction of canal outlets in demonstration against the government.

Every day the demonstrators are arrested—but always a new group takes over 24 hours later.

Police estimate 650 persons are in jail.

A similar campaign in Orissa, where peasants are resisting eviction from a mass invasion of army camps and establishments left vacant by withdrawal and demobilization of British troops, has resulted in 300 arrests.

## British Squatters Grab Army Huts

LONDON (CP)—All over Britain little bands of homeless people continued a mass invasion of army camps and establishments left vacant by withdrawal and demobilization of British troops.

In some cases civilians moved in as the army moved out.

This spontaneous 20th-century squatters' movement by a traditionally resourceful people bent on beating the housing shortage spread to the outskirts of London but is the same throughout the land.

Camps in Scotland were being occupied and in every district harassed fathers were on the prowl for quarters.

No official action has been taken yet although the health ministry has expressed concern at a lack of sanitation facilities. Many have such services as light and water but these often are cut off as troops are withdrawn.

Nearly all the men in the new army of occupation are former soldiers familiar with camp life. The usual procedure has been to form committees to handle various phases of community life.

The squatters accept the new conditions cheerfully and make a game of selecting names for their adopted dwellings. A sign on one hut near Amersham in Buckinghamshire reads: "Dunroamin."

## Torrential Rains Damage U. K. Crops

SWITCHBURG, England (CP)—While prayers for fine weather are being offered in churches throughout East Anglia, farmers in Britain's richest grain-growing area are calling for army help in their fight to save this most vital food harvest.

Over a wide area, fields of heavy-dropped barley, oats and corn have been flattened by torrential rains, sometimes stripped of a quarter of their yield by hail which left only bare stalks. Farmers describe the harvest situation as "disastrous."

Damage estimated at more than \$1,000,000 has been suffered.

## King Decrees Talk At Peace Parley

DIEPPE (CP)—Speaking at a service in a Canadian cemetery, Prime Minister King said there has been "far too much discussion at the peace conference."

There is not enough of the spirit exemplified here at this service where we have people of different faiths commemorating a Canadian exploit, the prime minister said.

"I want my words to go to the people in Paris, the only duty of the peace conference, and it is a supreme duty to cultivate a spirit of amity and friendship as rapidly as possible."

## TPR, PENNELL DOCKS

TPR, C. W. F. Pennell, Edmonton, has landed in Halifax aboard the liner Aquitania. He was listed incorrectly in Saturday's paper.

## Burglar Kills Self As Police Close In

DETROIT (AP)—An ex-convict, trapped as he burglarized a safe, shot himself to death early Sunday as police crept through a hallway toward him using one of his companions as a shield.

Police Inspector Marvin Lane identified the dead man as Peter N. De Florio, 32, and his companions as Francis J. Maher, 45, and Raymond Nowicki, 29, all of Detroit.

An anonymous woman tipster touched off the spectacular police raid as several police cars closed in on the Friendship Inn, De Florio and Maher made a break for the rear door as police surrounded the place.

Maher was captured, but De Florio dashed back inside and booted the door. Police then battered the door down and crept in, using Maher as a living shield.

The officers tracked him as Maher pleaded with De Florio to surrender. As the police started up the stairs, a shot rang out. Police found De Florio unconscious from a bullet wound in the head and he died en route to a hospital.

A search of the premises disclosed Nowicki hiding in a closet.

## Put VIGOR in your step

### Start your breakfast with 2 Tablespoons of Grape-Nuts

Here's a ready-to-eat cereal full of goodness and delicious to taste.

A rich malty flavor—sweet-as-a-nut—all due to a special process of double-baking of the blended grains, sun-ripened wheat and malted barley.

Yes, there's no other cereal just like Grape-Nuts and remember all you need for an average serving is JUST TWO TABLESPOONS.

This gives you—14 to 16 servings in every package.

Here's the nourishment you get in every serving of Grape-Nuts:

- CARBOHYDRATES—for energy
- PHOSPHORUS—for bones and teeth
- IRON—for the blood
- PROTEINS—for muscle-building

Put GRAPE-NUTS on your grocery list this week.

## Channing Pollock, Author, Dies at 66

SHOREHAM, N.Y. (AP)—Channing Pollock, author and dramatist, died at his summer home here Saturday. He was 66.

Mr. Pollock was stricken Friday with a cerebral hemorrhage and remained unconscious until his death.

Born in Washington, D.C., Mr. Pollock started his career as a dramatic critic for the Washington Post in 1896. He turned to writing plays at an early age and was the author of more than 30, most of them successful.

His works included "The Fool," 1922; "The Enemy," 1923; "The House Beautiful," 1931. He also wrote the script for the Ziegfeld Follies of 1915 and 1922, produced six books of short stories and essays and two novels.

He was a world traveler and noted as a lecturer, to which he devoted much of his time. He conducted weekly page for the Sunday New York Journal-American and made many radio broadcasts.

## Sixteen Lose Lives In Eastern Mishaps

TORONTO (CP)—Sixteen accidental fatalities in eastern Canada were reported during the weekend. Seven persons lost their lives in automobile accidents, four drowned, two died in train accidents, one woman died from polio and a man died in hospital after having been hit by a baseball.

Most serious automobile accident was at Theford, Ont., where three persons, including a three-month-old baby, were killed when a dump truck crashed into them as they stood beside a parked car outside a church.

## Assaulted German, Farmer Bound Over

STRATFORD, Ont. (CP)—Gordon Bach, farmer of nearby Loyalton township, Friday was convicted of assaulting Frank Koltan, a German prisoner of war who had been working on Bach's farm. Bach was given a month's suspended sentence, bound over in the sum of \$100 to keep the peace and ordered to pay court costs.

In Canada we are proud of our justice," said Magistrate A. F. Cook.

# "I don't know WHAT AILS ME"

HOW OFTEN have you heard somebody you know make that remark?

Nobody is immune to disease. Health can slip away—almost unnoticed. Heart trouble, cancer, tuberculosis, diabetes and arthritis are only a few of the many ailments which destroy good health.

The real tragedy is that of becoming uninsurable before you have made the future financially secure for yourself and your family.

Avail yourself of the services of a London Life representative while you are in good health. There are many ways he can help you with your plans for the future.

## Receive Tenders For Water System

VERMILION—Twenty-nine tenders have been received by town council officials for the construction of a water and sewer system for the town. The project is expected to cost about \$250,000.

Also present at the meeting were representatives of several of the companies submitting tenders. The bids were on hand from construction and supply firms of Toronto, Winnipeg, Saskatoon, Edmonton, Calgary and Vancouver.

Tenders are to be checked over by J. Hadden of Hadden and Miles, construction engineers engaged by the town in connection with the work, and his assistant Mr. Clark. It will be several days before successful companies are selected.

## 13 New Members Join Flying Club

RED DEER—Central Alberta branch of the Calgary Flying club held a meeting in the Phelan hotel, Red Deer, with an enthusiastic membership present. Thirteen new members, from Inglehart and Peace, were added bringing total membership of this recently formed club up to 63. A new Aeromarine, the latest type of training craft, will be used about on the twice weekly instructions given members from the Penhold airport. Four girl members have joined the local club, coming from Tees and Rocky Mountain House to receive their flying instructions.

## GUEST SOLOIST CAMROSE—Miss Betty Freeman

for the past year studying vocal at Vancouver, and will be singing Australian baritone and voice instructor, Clement Williams, and who is now visiting her home here, was guest soloist at the regular Rotary luncheon meeting, Miss Freeman was introduced by president W. L. Knaul.

New Zealand's ceramics industry is seeking new products and processes.

## Boy! Will You Ever Have a Good Time!

## Crews That Piped Gas to Alberta Towns Are Shown At Work

Natural gas was turned on at Camrose and Wetaskiwin towns last week, culminating many years of effort by officials to have the natural gas heat installed. Picture shows a crew cleaning welded six-inch piping for flow south of Ponoka where gas also will be installed. The caterpillar holds the pipe off the ground as the machine moves forward at the pace of a slow walk. As the pipe is cleaned it is given a coat of tar.

## Central and North Alberta News

### Wainwright Plans \$250,000 Hospital

WAINWRIGHT—A new hospital, estimated to cost more than \$250,000, is being planned by the Wainwright hospital district.

It also is revealed that a new medical clinic is being considered at Wainwright. The clinic is to contain medical and dental laboratories such as those found in larger centres.

Newest oil well to be drilled by the Baxter Lake Oil in this district has an estimated daily flow of 75 barrels.

The taxpayers of Wainwright voted overwhelmingly in favor of the sewer and water bylaw. Contracts are to be let, and work started as soon as possible on this project.

### Plan Field Day On Weed Control

RED DEER—Weed control will be discussed at a field day to be held on the farm of E. A. Wilson, Tuesday, Aug. 20. Experiments conducted in experimental plots, using selective sprays and cultural methods will be aired.

J. H. Mather, supervisor of weed control and soil conservation will talk on cultural methods of control and the Borsland, supervisor of the municipal district of Red Deer, will discuss the test plots.

A summary of the value and costs of selective sprays will be given by Harry Leggett of the dominion experimental farm at Lacombe. Field day is arranged by O. G. Bratvoide, district agriculturalist.

### 2 Major Projects Discussed at Irma

IRMA—Two major projects, a water system and a hospital, were discussed at a recent meeting of the board of trade here.

Regarding the water system, it was decided to obtain facts and figures to be presented at the next meeting. Hospital scheme was thoroughly gone into and members expressed their appreciation for progress made.

Question of closing hours for stores was brought up but, as no authoritative statement by the department was available, this matter was left in abeyance.

### ORDER MAINTAINER VERMILION—The town has

ordered a modern power road maintainer for work on the town's streets. The order for the machine was placed with the Watrous company and will be for a speed control grader with a 10 foot blade.

## Coronation Rodeo Won By G. Doan

CORONATION—More than an estimated 3,000 attended Coronation's first real attempt at staging a rodeo. The event was a success, with plenty in spots and the old shower forced many visitors to cover.

But Gordon Doan, Halikirk, had every reason to be pleased with the day as he was named best all around cowboy. He received a silver bit and bridle as a trophy for his success, Johnny Giesler making the donation.

### Had Nine Chutes

Nine chutes made it possible to have something coming all the time, with a public broadcasting system, advising the crowd what to watch for in the "saddle bronc" riding.

Gordon Doan, of Halikirk was first, next in order being Ted Holden, of Holden, Stan Jackson, of Gladby, and Wally Lindstrom, of Aldridge. The trophy for first was a Gladby bag, and a purse of \$138. Second, chrome bit trophy and \$103, then \$89 for third and fourth.

Call riding was won by Albert Galmann, of Sunnyside, whose trophy was a gold watch, and purse of \$118. Chrome bit trophy for second and purse of \$87, went to Alec Lay, Souding Creek. Other winners were Tom Peak, of Dorothy, \$59, George Shilke, of Rucker Creek, \$29.00.

### Barbecue Winner

Barbecue, first was won by Miff Doan, Halikirk; second, Gordon Doan, Halikirk; third, Roy Newmann, Trophy for first was a wrist watch and purse of \$48, second, chrome bit trophy and \$40, third \$23, fourth \$16.00.

Side riding winner was W. C. McLean, Kinsley, wrist watch trophy for first and purse \$64. Muff Doan, chrome bit trophy and \$40, second, chrome bit trophy and \$40, third \$23, fourth \$16.00.

Chuck wagon race, in order: Miff Doan, Halikirk; second, Gordon Doan, Halikirk; third, Roy Newmann, Trophy for first was a wrist watch and purse of \$48, second, chrome bit trophy and \$40, third \$23, fourth \$16.00.

### Italian Case Told To Premier King

PARIS, (CP)—Italian Premier de Gasperi, told the premier of the country's case for a more lenient peace treaty to Prime Minister King in a private interview at the Grillon hotel.

De Gasperi explained in detail Italy's position and viewpoint at the conference and elaborated on his speech before the plenary session of the conference last Friday.

The Canadian made a statement following the meeting but it is known the delegation tends to question some clauses of the preliminary treaty with Italy proposed by the council of foreign ministers.

Canada takes the general position the treaty should not be so harsh on Italy as the present one, and prevent her from taking a place in the European economy.

The dominion believes Italy one goal of an equitable and durable peace.

Canada also is interested in trading with Italy.

Following his interview with the Italian premier, King was scheduled to see the chief of the Romanian delegation to the peace conference but the meeting was cancelled and no reason was given.

### World Oil Control By U.N. Proposed

WASHINGTON—A state department official's suggestion for United Nations control of the world's oil resources was the lead item in an editorial page controversy which shows up the great chasm between the extremes of present day United States thought on world oil.

While the liberally-minded Washington Post Monday calls the idea a "household development in United States foreign policy," the Peterson-McCormick Times-Herald tub-thumps: "If we are ever such fools as to surrender our oil to any other country, we are through."

The Times-Herald belabours the idea to the extent of two-thirds of a double-width column, ending in a flurry of facts and figures.

"The future of U.S. power is continually bound most intimately to the future of U.S. oil, but the way to power for a good future is not through any give away U.N. organization."

The Post's remarks, uncontrolled competition for the world's oil supply, certainly a potential cause of war and last spring's dispute over Iran "might have been avoided, or at least minimized had there been some air means for allocating Persian oil concessions by international agreement among the nations with a valid claim to them."

The United Nations oil authority proposal was brought up in a week-end broadcast by the state department's John Loftis, who advocated the setting up of an international organization under the economic and social council of U.N.

It would have authority to examine facts and perhaps even to take action in disputes over oil concessions.

In Public Interest

The Post remarks "some American oil interests may object to this proposal but it is time to realize that oil because of its strategic military value and economic importance is viewed as a public interest."

It concludes "we hope the British foreign office will join our state department in advocating quick action through the United Nations."

The state department broadcast told the United States it faces an oil shortage in 30 years and that the best forerunner of petroleum is the strife ridden Middle East.

## Man Held in Perth In Brawl Shooting

PERTH, Ont. (CP)—Kenneth Loyat, 35, of Kalamand Station, Ont., was held in connection with a shooting in connection with the shooting of Alvin Patterson, 36, of Arden, Ont., in a dance hall brawl at Cross Lake Friday.

Meanwhile Patterson was given a 30-day chance to get out of a bullet wound in his stomach.

### Had Nine Chutes

Nine chutes made it possible to have something coming all the time, with a public broadcasting system, advising the crowd what to watch for in the "saddle bronc" riding.

Gordon Doan, of Halikirk was first, next in order being Ted Holden, of Holden, Stan Jackson, of Gladby, and Wally Lindstrom, of Aldridge. The trophy for first was a Gladby bag, and a purse of \$138. Second, chrome bit trophy and \$103, then \$89 for third and fourth.

### Italian Case Told To Premier King

PARIS, (CP)—Italian Premier de Gasperi, told the premier of the country's case for a more lenient peace treaty to Prime Minister King in a private interview at the Grillon hotel.

De Gasperi explained in detail Italy's position and viewpoint at the conference and elaborated on his speech before the plenary session of the conference last Friday.

The Canadian made a statement following the meeting but it is known the delegation tends to question some clauses of the preliminary treaty with Italy proposed by the council of foreign ministers.

Canada takes the general position the treaty should not be so harsh on Italy as the present one, and prevent her from taking a place in the European economy.

The dominion believes Italy one goal of an equitable and durable peace.

Canada also is interested in trading with Italy.

Following his interview with the Italian premier, King was scheduled to see the chief of the Romanian delegation to the peace conference but the meeting was cancelled and no reason was given.

### World Oil Control By U.N. Proposed

WASHINGTON—A state department official's suggestion for United Nations control of the world's oil resources was the lead item in an editorial page controversy which shows up the great chasm between the extremes of present day United States thought on world oil.

While the liberally-minded Washington Post Monday calls the idea a "household development in United States foreign policy," the Peterson-McCormick Times-Herald tub-thumps: "If we are ever such fools as to surrender our oil to any other country, we are through."

The Times-Herald belabours the idea to the extent of two-thirds of a double-width column, ending in a flurry of facts and figures.

"The future of U.S. power is continually bound most intimately to the future of U.S. oil, but the way to power for a good future is not through any give away U.N. organization."

The Post's remarks, uncontrolled competition for the world's oil supply, certainly a potential cause of war and last spring's dispute over Iran "might have been avoided, or at least minimized had there been some air means for allocating Persian oil concessions by international agreement among the nations with a valid claim to them."

The United Nations oil authority proposal was brought up in a week-end broadcast by the state department's John Loftis, who advocated the setting up of an international organization under the economic and social council of U.N.

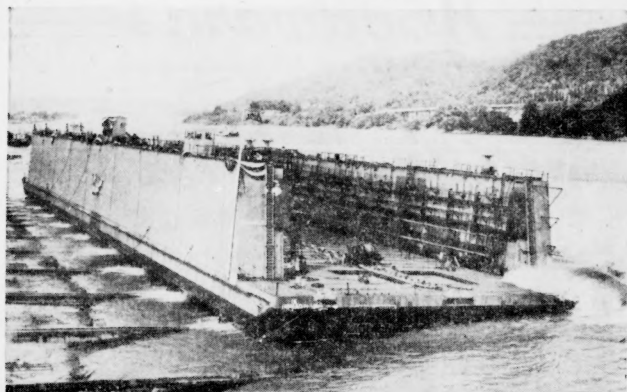

**PRICE DECONTROL BOARD OPENS  
PUBLIC HEARINGS IN CAPITOL**

**FIVE THOUSAND SURPLUS PLANES  
PURCHASED BY ONE INDIVIDUAL**

Copyright, 1946, by Arme Newspictures, Inc.

**BIG SPLASH**—Largest floating drydock ever built by U. S. Navy slides down the ways at Pittsburgh. Huge craft was under construction 18 months and cost \$3,000,000. With her launching, Navy war-time contracts come to an end at the Dravo Corporation Yards on the Ohio River.

**BACK TO HEALTH**—After being separated from its mother and found near death by Joyce Mayo and David Waggoner of Vilas County, Wis., this young fawn regains strength on a diet of milk.

**DECONTROL BOARD BEGINS WORK**—Conducting public hearings to determine whether price control should be continued, the new Price Decontrol Board hears testimony in Washington. Seated at long table from right to left are: D. W. Bell, R. L. Thompson, and George Mead. Others are advisors.

**"SURE YOU PUT THE CAT OUT, DEAR"**—Movie actress Jeanette MacDonald wears a puzzled expression while talking to her husband, Gene Raymond, during dinner party at the Waldorf-Astoria's Starlight Roof in New York upon her return from European concert tour. Raymond was recently discharged from the Army Air Corps.

**DUTCH ENVOY**—Dr. Alexander Loudon, Netherlands' Ambassador to the U.S., smiles happily as he looks at American soil from deck of the Westerdam after he arrives in Hoboken, N. J. Black Homburg is reminiscent to that of another envoy, Anthony Eden.

**WAR HUSBAND**—Reversing the familiar war bride story, WAC Lt. Clara Hart of Manchester, New Hampshire, brings her husband, John, home. He is a lieutenant in the Netherlands East Indies Army and was serving in Manila when they met. They are shown aboard ship entering New York Harbor.

**RIGHT OFF THE VINE**—With the tomato harvest in full swing in Riverton, N. J., Joan Danneker tries a ripe one from a batch waiting shipment to the Campbell Soup plant in Camden, N.J.

**"GALLOPING FLIGHT DECK"**—This Navy helicopter practices a landing on the reproduced deck of a ship. Forty by 60 feet, the wooden platform is designed to roll back and forth while students simulate landing on a vessel at sea.

**BETWEEN SESSIONS**—It takes three persons to carry on this conversation at the Paris Peace Conference between Australian External Affairs Minister, Dr. H. V. Evatt, left, and Russian Foreign Minister, V. M. Molotov. Interpreter for the representatives, right, listens attentively. Molotov and Evatt have clashed frequently during formal session.

**UNRRA CRUMBS**—When an UNRRA truck stops to unload its shipment of rice in China, children gather to glean the fallen kernels. These youngsters are in Hunan Province. Shipments to many villages have been seriously hampered by China's undeclared civil war.

**ONE MAN AIRFORCE**—Declared surplus property by the War Assets Administration, these 5,540 B-17's were purchased by Martin Wunderlich of Jefferson City, Mo., for \$2,760,000. Wunderlich bought the warbirds for scrap. They are no longer airworthy.

**SMILES FROM AROUND THE WORLD**—These secretaries of United Nations delegates are attending a garden party and dance in their honor at Hunter College, New York. Left to right are the champs of United States, France, Colombia, Scotland, China, Brazil and England.

## Canadian Branch Given Promotion

OTTAWA, (CP)—His Majesty the King has approved promotion of the St. John ambulance organization in Canada from a commandery to a prior.

W. J. Bennett of Ottawa, prior commissioner, announced Friday. The official name now is "The Prior of the Venerable Order of the Hospital of St. John of Jerusalem." A prior is the highest branch of the order outside England.

## WHAT IS THIS AMAZING FILM "THE LAST CHANCE"?

Once in years it happens. M-G-M presented "THE LAST CHANCE" on Broadway—and immediately the talk began. Said ALFRED HITCHCOCK, famed director: "Talk about suspense! This has it!" WALTER WINCHELL voted "Orchids to M-G-M's Thrill-oid!" PAUL GALLICO called it "One of the best pictures I've ever seen!" QUENTIN REYNOLDS summed up with "First on your movie list!"

Then, when the critics picked the ten best pictures of the year, here's what happened: "THE LAST CHANCE" was acclaimed as one of the ten best by THE NEW YORK TIMES THE NEW YORK POST THE NEW YORK HERALD TRIBUNE NEW YORK'S PM THE NATIONAL BOARD OF REVIEW and many others!

And here's why: "The Last Chance" is a moving moving picture—an emotion motion picture! The suspense is powerful—the thrills are constant! The tale moves from climax to climax with the blood-beat of many hearts, including your own! It is a picture you can't afford to miss—and one you will never forget!

# School Parley Studies Health of Children

"Scientific investigation of local health and nutritional conditions is one of the most potential factors in arousing interest in community education toward the betterment of community health. Our nutritional program among the children must take in the whole family or our purpose is defeat," said Dr. H. H. Siemens, director of the Public Health Unit in Alberta at the afternoon session of the annual School Trustees Association annual convention in Athabasca Hill Monday.

**HIS ADDRESS**, on "Nutrition and School Health," pointed out the various methods by which health of school children can be improved.

## Delegate Named To Trade Parley

Canadian fraternal delegate to the British Trade Union Congress to be held in Brighton this fall will be William McGruther, president of the Alberta Civil Service Association and a senior member of the provincial civil service.

**MR. MCGRUTHER** will sail on the Mauretania from Halifax on Aug. 27, and will spend several weeks in England, before returning to his annual vacation preceding the October meeting of delegates from many nations in Brighton in October.

While in France Mr. McGruther hopes to call on the sections of the peace conference as a spectator.

Program of the Brighton conference will center on children reconstruction from wartime to peacetime industry and economy and the considerable problems affecting hours of work and rates of pay for union workers.

The delegate leaves Edmonton on Monday and will spend some time in Ottawa before embarking for England. He expects to return in the latter part of October.

## Council to Study Building of Homes

Special meeting of the council will be held Wednesday, starting at 4:30 p.m. to discuss a revised plan for the construction of homes on the old penitentiary site at the meeting Wednesday.

**HOUSING ENTERPRISES LTD.** has purchased several blocks of property on the site from the city, which now is in the process of obtaining title to the entire site from the federal government.

The housing corporation plan for insurance is sponsored by Canadian Housing Corporation, an organization called for a project of three brick dwellings costing a total of \$100,000 on the southeastern side of the penitentiary site.

Because of an acute shortage of bricklayers here the corporation has now submitted an alternative plan of two-story stucco buildings. The mayor pointed out that with the smaller houses the corporation will need more land.

**COUNCIL WILL** have the new plan submitted to it for consideration at the meeting Wednesday.

On Thursday at 4 p.m. the special council committee on temporary wartime employees will hold a meeting to consider cases of temporary employees, who department heads desire to place on a basis of permanent employment.

At the last meeting of the council Fire Chief James MacGregor asked permission to retain the services of two of the temporary wartime employees.

It is expected that other department heads will make similar application to the special committee meeting Thursday.

**ALDERMAN S. BOWEN** is chairman of the committee on the city of the council. He is also chairman of the committee on the city of the council. He is also chairman of the committee on the city of the council.

**UNIVERSITY HEAD** To Attend Parley

Dr. R. C. Wallace, principal of Queen's University at Toronto and president of the University of Alberta for many years, arrived here Wednesday to attend sessions of the Canada-Newfoundland Educational Association in annual convention in the Macdonald hotel.

**IN THE MEANTIME** many leaders in education from all sections of the Dominion have registered at the Macdonald.

These include: B. O. Filteau, deputy minister of education in Quebec; R. M. Percival, Protestant school board; F. S. Rutherford, deputy minister of education for Ontario; A. R. Ross, deputy minister of education, Saskatchewan, and F. T. Fairly, deputy minister of education for British Columbia.

# Edmonton Bulletin Edmonton Journal

EDMONTON, ALBERTA, MONDAY, AUGUST 19, 1946

**CANADIAN LEGION PICNIC IS GREAT SUCCESS:** Above are scenes at the annual Canadian Legion picnic at Victoria Park on Sunday. The upper left picture shows Mrs. Jean Radaastak, 9832 86 avenue, a war bride who arrived here recently from Scotland enjoying her first bottle of "pop." Upper right shows the married couples' race, with Mr. and Mrs. Ben Kalis, 11231 92 street winning and Mr. and Mrs. Bill Maloney second. At the lower left is Lindy Lou Smart, 1517 96 street, 20 months old, daughter of Mr. and Mrs. D.R. Smart. In the lower right is Evelyn Tannous, 10820 58 avenue, and Patricia La Forge, 10568 102 street, 4 years old, having some ice cream. At the lower center are Evelyn McCaskill, 16, of 9716 80 avenue and Veronica Karavis, 14, of 9724 80 avenue enjoying refreshments.

## Name Controller Civilian Traffic

W. J. Eveleigh of Calgary who served with distinction in two world wars, is now in charge of the local branch, as about 5,000 members together with their families were in attendance at the large gathering held from 2 p.m. until late in the evening at Victoria Park.

**IT WAS A DAY** of days for the children but their enthusiasm was fully shared by the grownups from the showing of competitive films which were kept going on an even and rapid pace throughout the day.

One of the most popular spots on the ground was the merry-go-round and toddlers kept it in motion continuously. Other events included races for all ages, tug-of-war tournaments, horseshoe competitions and football games.

**THE RACES** were under the direction of Jack Jones, who also looked after announcements over the public address system. Large crowds were attracted by the races and many a fine burst of speed was noted.

In the horseshoe contest A.A. Wilkes proved his experience by coming out on top following an elimination contest which continued throughout the afternoon.

**Legionettes** proved their superiority over the All-Stars by taking their scheduled football game by a score of 11 to 4.

In the men's tug-of-war the feature event of the afternoon was captured by the Jumbos, a team coached by S.H. Campbell. The Jumbos were victorious in the tug and a husky crew of six representing The Loyal Edmonton Regiment.

**POSSIBLY THE** most outstanding event of the afternoon was the tug-of-war between the Legionettes and All-Stars and after a good deal of straining on the part of the ladies the Legionettes, coached by Mrs. P. Knight, displayed that they had greater pull.

This drew a crowd estimated at 1,000 cheering fans, each side trying to outdo the other in boosting for their favorite druggers.

The food booth also had a field day and activity-sharpened appetites were rewarded with hot and cold drinks, and a large array of delicacies were arranged and distributed by members of the Ladies' Auxiliary and women veterans. The food was under the direction of the auxiliary president, Mrs. W.T. Rice. Ice cream was served by the women of the section of the Canadian Legion, in-charge of Miss B. Crain.

**A NUMBER** of patients from the Colonel Mewburn Pavilion and Government House were guests of the Legion during the day. In charge of the visiting party of patients were Mrs. Arnold Taylor, Mrs. W.G. Paterson, Miss Sam and Miss Fisher.

Skirling of bagpipes was another feature of the big day as the colorful Canadian Legion pipe band, under the leadership of Pipe Major Henry Lang, provided a full afternoon's entertainment.

**OFFICIALS** of the Legion said they regarded the sports day as the most successful ever held in Edmonton and George E. Glover, chairman of the general committee in charge of the event, paid tribute to the members who assisted in arrangements and the smooth-running of events during the busy day.

# Army Cadet Corps Members in Camp

In preparation for intensified fall and winter training and to increase the number of instructors available for the rapidly expanding Royal Canadian Army Cadet Corps, officers and senior cadets on visits to Alberta and British Columbia are attending the summer instructional camp now being held at Sarcee Camp.

**THE CAMP** which lasts for the month of August is being held to qualify cadet instructors and potential instructors for duties with cadet groups throughout the two provinces. In addition to instruction, captain instructors qualifying for the next senior rank, classes are being held to select selected senior cadets attain their commissioned ranks.

Of the 56 candidates attending during their summer vacation period, 15 of the candidates are from army cadet organizations in British Columbia. The majority of the student instructors are school teachers from Calgary, Edmonton, Lethbridge, Vancouver and other towns of the provinces.

**CITIZENSHIP** training, health and physical training and democratic responsibilities are the main subjects on the syllabi of these summer camps. In addition, future aid, administration and organization, fieldcraft, map reading and small arms training are given in the month-long course.

The instructors' school which is being held under the command of Major W. J. Penny, district cadet officer, Military District 13, involves practical training in the organization and administration of community cadet groups. Active force instructors from the YPCLI and the I. S. H. regiments are instructing the candidates in these subjects.

**AT A MESS** dinner held during the first half of the camp, Lt. Col. R. A. Keane, Western Command, and Major W. J. Penny, district cadet officer, Military District 13, were present. Mr. Keane, Western Command, addressed the candidates and expressed his appreciation for the excellent work being done throughout the camp.

He spoke briefly on the theme of the Cadet Instructors' school and stressed the importance of citizenship training which is being given to boys of the cadet corps.

**PACKERS TO VOTE** On Strike Tuesday

About 1,000 employees of Canada Packers and Burns and Company will commence their balloting for strike action early Tuesday morning, it was announced Monday by the union.

**THE ACTION** in the balloting will be on the heels of the report that negotiations between employees and employers of the United Packinghouse Workers of America (U.P.W.A.) are at a standstill.

**THE U.P.W.A.** union officials are asking for a minimum wage of \$3.60 per week, the security of a union shop and a maximum work week of 40 hours.

**A VOTE** on strike action taken recently by union members at Swifts resulted in a large majority favoring strike action, taken in the balloting.

**MR. HAMPTON** will leave tonight for Red Deer where he will open negotiations for pay, benefits and shorter hours for CIO member employees of the Central Alberta Dairy Pool in the city.

**FROM THERE** he will go to Calgary for discussions on the possibility of taking a strike vote in the Burns plant here.

**KILLED IN NORTH**

When the truck in which he was riding ran into the ditch about five miles south of Grande Prairie on Saturday afternoon, Cecil Cameron, a married resident of Edmonton, died.

**HE HAD BEEN** a member of the RCMP, Cameron was riding in the box of the truck and when the vehicle left the road he fell out and the rear wheels passed over his body. Driver of the truck was Edna Cameron, wife of Cecil.

**THE CORNER** for the district has stated that no inquest will be necessary.

**PLAN NEW PLANT**

City land department has recommended the sale of property at 121 street and 119 avenue to Albert Lironde of this city who wants to erect a modern cleaning plant at an estimated cost of \$4,000. Sale price of the lot is \$550.

**TRAMS DAMAGED**

Two boys about 15 years old are reported to have caused about \$75 damage to two city street cars Sunday afternoon by starting up one of the cars which was parked on 81 street and 116 avenue. The boys ran into another car parked ahead of it. The two boys ran away when chased by D. McAllister, 11607 81 street.

**MAN INJURED**

A man whose identity has not yet been made known was injured in a highway accident about five miles south of Leduc on Sunday. It appears that the man was in a car along the side of the road when two cars went to pass one another and struck the car. The man was picked up by the RCMP highway patrol. The extent of his injuries are not yet known.

**EMERGENCY POLICEMEN**

JOHANNESBURG, Aug. 18 (AP)—A chain of SOS call boxes is to be established in the Johannesburg central area to enable the public to act as emergency policemen in the event of a crime. These call boxes will operate on a system of direct communication by microphone with police headquarters.

The Junction Hotel in Western Australia is surrounded by a four-foot fence made of empty beer bottles, known locally as "dead man's fence."

**TRUSERS LOOTED**

Once more city police report that a pair of trousers were taken from a man who was asleep in the same room. This time the report came from George George Woodhouse, 920 1024 avenue who states that he went to bed early Sunday morning, hanging pants over a chair. When he awoke the trousers were on the floor and the door unlocked. Missing from the pocket was a wallet containing about \$25.

## Committee Report Favors C. B. C. Control of Networks

By Torchy Anderson

OTTAWA—The Canadian Broadcasting Corporation won a handsome victory over private radio in the report of the parliamentary special committee tabled Friday night by Chairman Ralph Maybank (Winnipeg South Centre).

That the report will not die without discussion before the end of the session was assured when Justice Minister St. Laurent announced the government intended to introduce a bill amending the present act. This will give the house opportunity to discuss the report which in all probability represents a majority rather than unanimous expression.

The committee decided the C.B.C. should continue to control network broadcasting. This is coupled with a pat on the back for the community work on private stations.

The committee stated the occupation of a radio frequency does not imply any permanent right for private stations.

**Favor Appeals**  
The committee, although it agrees there should be some appeal from decisions of the C.B.C. as the controlling body of all radio in Canada, is not ready to recommend the adoption of a separate governing body, such as the transport board. The committee suggests this matter demands further study from a committee at the next session.

The committee approves the move of the C.B.C. to occupy all class 1-A clear channels, such as CPN, Calgary and CFRB, Toronto, now operating privately.

It is recommended the Canadian Broadcasting act be amended to allow greater loans for capital expenditure than the present limit of \$500,000.

Dr. A. Prigun, general manager of the corporation, will get tenure of his office until the age of 65 if the government adopts the recommendation which would give such assurance to the occupant of that position.

**Get All License Fees**  
It is recommended the C.B.C. should get the full value of \$250 licenses paid by Canada, but not any cut for collection now taken by the department of transport.

Serious consideration of establishing a second French network is recommended.

The Canadian Press reported that it was reliably learned that the report was hotly-contested, section by section, by Progressive Conservative and Social Credit members in prolonged closed meetings. This minority block is understood to have opposed most of the report.

The report recommended that commentators guard their utterances "to protect at all times the heritage of our free democratic way of life."

**Not Refused**  
The committee spoke of opportunities private stations should have for service and for business. Its opinion was expressed that the occupancy of radio frequencies should not be a permanent right but that a license to broadcast was in the nature of a trust that should be discharged by making sure a reasonable segment of every day's broadcast time would be given over to money-making broadcasts, such stations were not discharging their trust.

The recommendation on commentators is said to have been proposed by Rev. E. G. Hanson (St. Michael's) who had offered some criticism to broadcasts by Elmore Philpot, Vancouver news analyst.

The recommendation on commentators is said to have been proposed by Rev. E. G. Hanson (St. Michael's) who had offered some criticism to broadcasts by Elmore Philpot, Vancouver news analyst.

## Greece Charges Albania Warlike

NEW YORK, (AP)—Greece Friday filed additional charges against neighboring Albania in efforts to block her admission to the United Nations, contending Albanian Premier Enver Hoxha had introduced "a ruthless dictatorship" and tripled the army.

The Greek memorandum, reiterating Albania was "not peace-loving," was submitted to a security council membership committee studying the Soviet-Greek application. It was presented by Ambassador Vassili Dendramis, Greek representative to the U.N.

"Albania has 75,000 men under arms, three times her pre-war force," Dendramis said. "Half of the national revenue of Albania goes to army expenditures, far out of all proportion with the needs of the country."

"The bellicose attitude of Albania is in evident contradiction to the charter of the United Nations which provides as a condition for the admission of a state its peace-loving qualifications."

The Greeks also charged Premier Hoxha was transforming Valona, near the entrance to the Adriatic into a great naval base. The Greek memorandum purported to show Albania had close ties with Italy and fought on the side of the Axis in the war. It minimized Albanian contentions of a powerful underground aiding the Allies by declaring the total-take movement did not start until Albania saw the Axis would be defeated.

The committee, which also has before it eight other applications, will meet again Monday.

## Prairie Moisture Reported Better

Overall moisture conditions for the three prairie provinces advanced one percent during the week ended Wednesday, Alberta, crop districts showing the best records of the three, according to Scarle Grain company observers.

Total moisture condition for Alberta, Saskatchewan and Manitoba was recorded as 87 percent of normal, compared with 89 percent last year.

The average rainfall reported by nine centres was slightly more than one inch, with Ardmore showing the highest at 2.02 inches. Ardmore is 145 miles northwest of Edmonton. Vermilion was next with 1.99 inches.

**ACTING DEPUTY RETIRES**  
REGINA, (CP)—Lorne C. Paterson, 58, acting deputy minister of the provincial resources department, has retired. It was announced Saturday. His resignation becomes effective Sept. 1.

## Hogs Race Human Swimming Aces

While the controversy still rages whether or not the famed "Pig No. 311" swam the radio-active Bikini lagoon during atomic bomb tests, residents of Kirkland, Wash., are proving pigs actually can race. Kirklanders are staging an aquatic pig race.

## Plane 7 Miles Above Earth Discovers Mysterious Rays

WASHINGTON, (NANA)—Seven miles above the earth are mysterious radiations which affect all electrical instruments and which will necessitate extensive changes in the design of atmosphere rockets in which mail eventually may go to the moon or Mars.

Discovery of these sub-atomic sphere rays was announced with the return here of the "Flying Laboratory" of the national geographic society and army air forces—a specially equipped B-29 bomber—after a cosmic-ray exploration of the upper atmosphere on four levels over a path of 4,800 miles between the Canadian border and northern Chile.

Effect of the unidentified radiation becomes acute as members of the expedition reported, only after about two hours at high altitudes, but it is sufficient to cause miscalculations from instrument recording.

**Must Change Radar**  
Even more significant for the rocket age of push-button war will be guided missiles was the discovery that radar waves, which would be used to control the flight of such weapons, become slightly bent when they enter the thin atmosphere, like light rays penetrating water. This will require the laborious compilation of entirely new tables of refraction at various atmospheric densities.

It also was revealed that cosmic rays themselves, hitherto only of scientific interest although about 30 of these infinitesimally minute space bullets pass through every human body every second, may soon become a matter of very practical concern. They have the most powerful of all known forces, some of them 10 times as powerful as anything resulting from the explosion of the uranium nucleus in the atomic bomb.

The most potent cosmic rays will go through 75 feet of lead as though it were a sheet of paper. They have been inconsequential to man because the surface of the earth is shielded from them by 30 m. earth is shielded through which only a small proportion of entirely new tables of refraction at various atmospheric densities.

## EATON'S, TUESDAY SHOPPING

STORE OPENS AT 9:30 A.M. CLOSING AT 5:30 P.M. DAILY, EXCEPT WEDNESDAY.  
9:30 A.M. TO 12:30 P.M. TO CALL EATON'S—DIAL 9-1-2

## Coats Appear on Fashion's Horizon

**THEY'RE BELTED!**  
The ever popular wrap around, like the one at the right.... shown with the regulation, push-up or tight cuff peasant sleeves, in Banff Blue, Pine Tree Green and other Canadian Colors! Sizes 11 to 18.  
Each \$23.95

**THEY'RE LOOSE FITTING!**  
Cosy shags in three-button style at lower right, or Balzacian with small collar. Victoria Red, Beaver Brown, other Canadian Colors, sizes 12 to 42.  
Each, \$35.00

**Town Casuals**  
by Stetson!  
EATON'S presents charming fur felts, styled to be at ease anywhere!  
Each, \$7.95 to \$12.95

**Fall Footnotes**  
SLING - BACK PUMP (illustrated)  
A shoe to dine and dance in.... shiny black "Verylite", (plastic, trade name)  
STREET PUMP  
To walk and work in! Dark brown calf leather, Cuban heel. Both, sizes 5 1/2 to 9, AAA to B widths, \$10.00 pair.

**WANT CENTRE LINE**  
CALGARY, (CP)—Recommendation that the Alberta government follow the policy of most states in the United States of having a centre line down highways as a safety precaution was voiced by L. M. Smith, secretary of the Alberta Motor association.

It recently has been calculated that at about 20 miles above the earth it will be advisable to start shielding the human body from what may be a rain of death in outer space. While actual conditions are unknown, cosmic radiation may prove the greatest barrier to ionosphere flying.

The primary object of the expedition was to determine the latitudinal distribution of this radiation. This, it long has been known, varies enormously—due, it is thought, to the magnetic attraction of the earth's poles for the cosmic bullets which may be actual material particles.

The origin of the cosmic bullets, first discovered about 20 years ago, still is unknown. They appear to be independent of the sun and presumably come from space outside the solar system. They have been said to be the result of the explosion of stars thousands of years ago.

The expedition made three round trips between the Canadian border and Chile at altitudes of 15,000, 20,000 and 30,000 feet, and two round trips at an altitude of 5,000 feet.

It also was revealed that cosmic rays themselves, hitherto only of scientific interest although about 30 of these infinitesimally minute space bullets pass through every human body every second, may soon become a matter of very practical concern. They have the most powerful of all known forces, some of them 10 times as powerful as anything resulting from the explosion of the uranium nucleus in the atomic bomb.

The most potent cosmic rays will go through 75 feet of lead as though it were a sheet of paper. EATON'S NEW CANADIAN COLORS!

**BUDGET PLAN TERMS**  
in accordance with Wartime Prices and Trade Regulations on Fashions and Footwear at \$15.00 and over.

## AUSTRALIAN WOOLENS

Just arrived! Yards and yards of 100% virgin wool coatings, suitings and dress goods in a wide variety of weaves, an exciting range of colors! All approx. 54" wide, \$3.00 to \$5.95 Yard....

**Checked Suiting**  
Fine textured wool in a large novelty check. Coral, blue and green, width approx. 54". Yard.... \$2.95

**Tumble Spun**  
A rough textured spun rayon and cotton weave in coral, grey, blue, lime, navy, rust and rose. Approx. 36" wide. Yard.... \$1.69

**Plain Tropica**  
Bright colors and pastels in this group of plain slub rayon tropicals, approx. 36" wide. Yd. \$7.95

**Printed Percal**  
Pretty cottons... wash like a charm and keep their bright, clear colors! A number of patterns, all approx. 36" wide. Yard.... 49¢

**Rabbit's Hair Jersey Feather Flannel**  
Very flattering in business or afternoon frocks! Wool jersey weave with fine rabbit's hair; soft rose, blue, lilac, lime and gold, approx. 54" wide. Yard, \$2.85

**Pastel Chinchilla**  
Light in weight but very good for long wear! Spun rayon fabric in lovely fall shades. Approx. 54" wide, 69¢ Yard, \$2.49

Yard Goods, Main Floor, North  
**T. EATON CO. LIMITED**

## BARGAIN SECTION ITEMS

**MEN'S SPORT SHIRTS**  
Practical deep blue color... a good cotton shirt for work or play! Turned back collar and short sleeves. Small, medium and large. Each \$2.19

**WORK GLOVES**  
Pecary hog suede leather gloves in grey only Small, medium and large. Pair \$1.19

**MEN'S HANDKERCHIEFS**  
Red or blue polka dot cotton handkerchiefs, hemmed, about 16" square. 2 for 25c

**THERMOS BOTTLES**  
Regulation pint size bottle for lunch kits. Each \$1.19

**LUNCH KITS**  
Regulation size black metal kits with metal clasps and handle. Each 69c

No Mail Orders—No Delivery  
**T. EATON CO. LIMITED**

Bargain Section, Lower Floor, East
